(Walk ins welcomed)

*Door Prize  
2 EchoDots will be given away!*

Join us for an informative panel discussion addressing marijuana's impact on the developing teenage brain, negative consequences and the science behind it.

Panelists will discuss:

- Marijuana today vs. yesterday
- Effects on the teenage brain
- What happens after an arrest for possession of marijuana
- Drugged Driving
- What law enforcement is seeing locally
- Impact on academics, school life, and peers
- Treatment, recovery, and supports available for the patient and family
- Road to recovery-there is hope

This supports Somerville Public School District #Vision2020 Goal #3
